

Asterion

Spring oat variety ideal for organic and low input farming

99%

UK treated yield
2026 AHDB RL

8

Mildew
2026 AHDB RL

93%

Untreated yield
2026 AHDB RL

Key Characteristics

- One of the highest grain qualities available with high specific weight and kernel content
- Fantastic disease resistance package and untreated yield results
- Good resistance to lodging
- Asterion is accepted by millers and on organic contracts

Recommended for

- Organic low input growers
- Milling

Growing Information

UK Yield 99%	Untreated yield 93%	Mildew 8
Crown rust 8	Kernel content 72.6%	Specific weight 52.5kg/hl
Screening (% through 2.00mm) 3.2%	Resistance to lodging without PGR (1-9) [7]	Straw length without PGR 111cm
Maturity -1
