

# SU Baresi

Proven performance in both grain and biogas production

**104%**

Grain Yield  
2025 AHDB RL

**113%**

DM yield  
Internal trials

**112%**

Freshweight Yields  
Internal trials

## Key Characteristics

- Sets the benchmark in yield, agronomic strength and versatility
- Suitable for light and heavy land
- Stiff Strawed
- High specific weight at 77.1kg/hl

## Recommended for

- Grain
- Silage
- Biogas
