

Shona

High yielding dual purpose variety, suited to the East.

103.6

UK Treated Yield (% controls)
AHDB Spring Barley RL 2026

316.47

Hot water extract (l deg/kg)
AHDB Spring Barley RL 2026

437.59

Predicted spirit yield (laa/t)
AHDB Spring Barley RL 2026

Key Characteristics

- High yield across the UK and exceptional performance in the East
- Good resistance to mildew and netblotch
- Farmer focused agronomics and quality for end users
- A potential dual purpose: under test by the MBC

Recommended for

 Pending MBC Approval
