

Palace

Dependable and proven variety, extremely reliable and versatile with proven canker resistance. Suitable for a long production period and ideal for pre-pack and processing. Produces high yields with shallow crowns and good weight distribution down the root.

140 days

Days to maturity
Approximate number of days from sowing to maturity.

6

Leaf vigour
Elsoms independent trials (1 = very low/poor, 9 = very high/good)

6.5

Root Length
Elsoms independent trials (1 = very low/poor, 9 = very high/good)

Key Characteristics

- Dependable and versatile
- Proven canker resistance
- Long production period
- Ideal for pre-pack and processing
- High yielding
- Shallow crowns
- Good weight distribution down the root

Recommended for

- Pre pack
- Processing
