Eastern Yield (% treated controls)
AHDB Winter Barley Candidate List 2026-27

8.0
Brown rust (1–9)
AHDB Winter Barley Candidate List 2026-27

Key Characteristics

- Extremely high yield potential
- Excellent resistance to brown rust
- Stiff straw with low lodging
- High specific weight

Recommended for

- Feed Barley

Growing Information

UK Untreated Yield (% treated controls) 87	**Specific weight (kg/hl)** 70.6	**Rhynchosporium (1–9)** 7
Net blotch (1–9) 5	**Brown Rust (1-9)** 8	**Mildew (1-9)** 5
Straw length without PGR (cm) [83]	**Ripening (days +/- LG Caravelle)** 0.7	**Growth habit over winter (Elsoms Trials Data)** Prostrate
