

Sparkler

The UK's highest yielding soft, paired with market-leading *Septoria Tritici* resistance. Sparkler is reigniting end-market flexibility, meeting distilling, feed and UKS export specs, widening access to premium contracts.

106.3

UK Treated Yield (% controls)
2026 AHDB RL

7.2

Septoria tritici (1–9)
2026 AHDB RL

7

Yellow rust (1–9)
2026 AHDB RL

Key Characteristics

- The UK's highest yielding soft wheat.
- High resistance to Septoria Tritici and Yellow rust
- Tall, high tillering variety that produces lots of straw
- Outstanding alcohol yield

Recommended for

- ✓ Distilling
- ✓ Feed
- ✓ UKS export
