

KEY FEATURES

- Excellent shelf life
- Suitable for field and indoor production
- Highest yielding variety

HELSINKI

Description: Helsinki is tall with striking dark green leaves and early vigour. Very high yield potential with the ability to be cut up to 3 times. Helsinki maintains a very good shelf life too. Recommended as an early variety, Helsinki can be used for the fresh market / industry and bunches.

Performance: Scores assigned from Elsoms' own trials.

■ Helsinki ■ Dukat

Growing: Direct seed rate: 8-10kg/ha

Pot sow rate: 40-45 seeds per pot

Elsoms own independent trials have shown Helsinki to be suitable for vertical farming, field grown or as a micro green.
