JOB DESCRIPTION

JOB TITLE

MACHINE TECHNICIAN

DEPARTMENT

SEED TECHNOLOGY

LINE MANAGER

PRODUCTION AND LOGISTICS MANAGER

LOCATION

SPALDING HEAD OFFICE

JOB SUMMARY

Work under the guidance of a process leader and be part of the Elsoms Seed Technology team to produce the highest quality seed.

KEY RESPONSIBILITIES

You will be working under the guidance of a process leader and be part of the Elsoms Seed Technology team.

You will be operating a wide range of seed technology equipment, following established working protocols and safe systems of work to produce a top-quality product for our customers.

You may be asked to work in other areas of the business and to broaden your skills base.

Full training in safe systems of working and seed treatment application will be provided.

PERSON SPECIFICATION

(team/company fit)

The successful candidates need to be team orientated, have good communication, numeracy, and computer skills.

A proven record in a production environment and previous experience in operating machinery will be beneficial but training will be given.

Package

Benefits include:

- Eligibility for the discretionary company bonus scheme
- Personal development and training opportunities
- Double match-funded contributory pension scheme
- Life assurance and income protection schemes
- Bike to work scheme
- Wellness programme
