

KEY FEATURES

- High yielding (105%)
- Medium tannin content and relative low vicin/convicin
- Good quality sample - suitable for human consumption/export markets
- Strong standing at harvest
- Ideal for high yield potential sites
- Very good seed availability

STELLA

Spring Beans

Description: A very high yielding spring bean which has produced ideal samples for export trade with its uniform and large oval seed size. Stella has relatively early maturity and excellent standing ability.

	Yield %	Standing power	Maturity	Rust	Downy mildew	TSW
Stella	105	8	7	5	3	537
Vertigo	101	8	7	4	4	572
Fuego	95	8	7	4	4	562
