

TYPE: Hybrid Rye

STATUS: Descriptive List 2024

The new, medium-early maturing hybrid rye variety SU Perspectiv is the successor to the extremely popular SU Performer. SU Perspectiv meets and exceeds on yields, while improving with slightly earlier maturity and significantly better brown rust resistance.

YIELD PERFORMANCE

UK treated yield

102%

- SU Perspectiv has shown particularly high yields when grown in the North of the UK or in Scotland.
- Good yields and a sensible maturity date brings confidence to your harvest.

DISEASE RESISTANCE

Brown rust

4

In field results have shown stronger resistance than trials. The crop responds positively to targeted fungicide programmes.

AGRONOMIC PERFORMANCE

Lodging treated (%)

14

Height

131cm

In private trials its been observed that SU Perspectiv has comparably low susceptibility to ergot infections.

QUALITY

Spec weight kg/hl

77.3

Protein

8.9

SU Perspectiv has shown positive results for milling and baking.
