

TYPE: Conventional

STATUS: Recommended List Candidate 2024

Responsive conventional oilseed rape for farmers pushing seed yields to the maximum. Exceptional agronomic merit, vigour and seed yield. Very good winter hardiness, Powerhouse is a medium late flowering variety with excellent secondary branching.

YIELD PERFORMANCE

Treated yield				Gross output treated			
UK	East	West	North	UK	East	West	North
100%	100%	100%	100%	102%	102%	102%	102%
<ul style="list-style-type: none"> Its long grain filling period produced a massive yield in the North over the controls. 				<ul style="list-style-type: none"> A two-year average gross output of 5.17t/ha from 2022 and 2023, despite the challenges of the 2023 season in trials 			

DISEASE RESISTANCE

Stem canker (1-9)	Light leaf spot (1-9)
7	7
Shows the strength of all round agronomic strength. Elsoms' varieties are the only conventionals with both 7 for Stem Canker and Light Leaf Spot.	

AGRONOMIC PERFORMANCE

Resistance to lodging (1-9)	Stem stiffness (1-9)	Plant height (cm)	Earliness of flowering (1-9)	Earliness of maturity (1-9)
9	8	146	4	6
One of the most vigorous varieties on the market, and its standing power matches the vigour.				

QUALITY
