

## KEY FEATURES

- Superb uniformity
- High quality head
- Excellent taste profile

# MONTEBELLO

**Description:** Elsoms are now offering green sprouting broccoli. Montebello has an elegant stem and high-quality head, together they produce an excellent spear. Our variety provides a full flavour profile. Additionally, the green varieties keep their colour during cooking.

**Performance:** Scores assigned from Elsoms' own trials.

■ Montebello ■ Control variety Key: 1=low 10=high

All data relates to UK trials.

**Growing:** Normal Spacing – 12TH/Acre (30TH/ha) to be grown and treated the same as all broccoli. For additional fertiliser requirements, consult RB209. Harvest the outer side of the head first, allow for further growth and then pick centre part of head. Irrigation is beneficial in this crop. UK Summer and Autumn season to Christmas.

### Cropping guide

Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
